

Congratulations to **Keauntee Redfearn-riddle, 2020 winner of the Margaret E. Hain Art Scholarship** sponsored by the Euclid Art Association. He will pursue study in art education.

From Keauntee's well written essay:

"High School has taught me a lot about myself as well as helped me developed my future career plan. During the passed two years I have been in a career tech class. My Visual Communications class has really made an impact on how I view my future career. I learned how to use many different materials. My favorite is chalk pastels. I have concentrated on mastering chalk pastels. I feel very confident about my skills and know that as I continuing my education, I will get even better. I am thankful for my teacher Mrs. Mellen for giving me the opportunities to be in her career tech program. She has helped me become a better person, a better me! I am completing my Capstone project shadowing Ms. Jen Douglas at Arbor elementary. I am very excited to experience what it is like to be in an art classroom. This should give me a taste of what it is going to be like when I have my own art classroom. I will be attending Columbus State Community College this fall majoring in Art Education. I have always wanted to teach the younger generation. I believe that life is full of challenges. I want to be able to pass on to others a way to use art as a tool to grow mentally as well as inspire creative problem solving in life."

Special thanks to Guidance Department Chair Kathleen Gonakis for connecting with art teachers while students worked at home, and to all the applicants for efforts to complete the process before the extended deadline.
