

# EUCLID ART ASSOCIATION

## EAA Sketchers

Saturday, October 22, 2022 from 1:00 to 3:00p.m. on Zoom

### Fall Foto Fun

Nine members participated in the "Fall Foto Fun" reveal and shared their varied and imaginative creations incorporating a photo into their artwork. The results were stunning and yet very different. Bernie said that she just loves doing these Sketcher/ Art Scramble events because it "stimulates my imagination". It makes her see things differently and opens up her mind. Here are some of the "Foto" creations:

Bernie Russ - a black & white photo was copied and placed on a mat board; colored with acrylics. Third image is 'cup & pie' cut out, glued and painted on a black mat board.

Char Dayton - enjoyed doing this assignment. Selected a photo from Nova Scotia...there are pieces of the photo throughout..notice the house with flowers. On watercolor paper, she painted the stream using acrylic paint and ink; for the birch trees and sky, she used sponges and bubble wrap.

Jeri Kluiber - Picture is sunset at Lakewood Park and Halloween decor on her front porch, incorporating dried leaves. A nice composite.

Joan Milligan - printed a photo on card stock and painted over it using acrylics and modeling paste.

Suzette Cohen - took her original photo of North Chargin and digitally reproduced it using Deep Art Effects, trying out various color themes.

Sue Herrle - digital photo collage, 4 original fall photos using Paper app on the iPad. Note: the big black spider was an actual photo of the 'gigantic' spider on the wall in her downstairs bathroom!

Lee Peters - used Photoshop filters to create a variety of 'altered' photos, with unique and beautiful results.
