

**Melanie Herbruck** is up next. Mel joined Euclid Art in 2012 and immediately volunteered to help on the Board as our Program Director. She, too, is an amazing and multi talented artist. She paints in watercolor, loves to paint nature and landscapes. She also creates jewelry as 'Lady Melanie' and designs fabrics, which can match some of her paintings. She started out as a commercial artist working for Buckeye Color Lab for many years. Now, she says that she is a housewife, first...cooking, cleaning and taking care of husband and cats. ART is her hobby. She designated Monday, Tuesday and Thursday from 11am to 3pm as her creative time. She even started doing Yoga! She just got a new computer and is now doing more creative things electronically.

Melanie spends much of her creative time studying and revising affiliate details and product marketing of online projects, licensing her artwork, resume writing and copyrights, even designing spreadsheets, as she desires to get back to the money making aspects of art. She writes and blogs about these subjects. Check out her blog on "[DesigningArtatHeart@wordpress.com](http://DesigningArtatHeart.wordpress.com)". She is even writing an e-Book. This is all keeping her very busy these days. She shared some of her wonderful fabric designs with us, which can be viewed on [www.spoonflower.com/profiles/melanie\\_herbruck](http://www.spoonflower.com/profiles/melanie_herbruck) and on the custom furnishings in her home. She also volunteers at the Cleveland Museum of Art. Visit her personal website: [www.melanieherbruck.com](http://www.melanieherbruck.com).
